Patient-specific prescriptions required in order to dispense. A physician must determine a compounded preparation prescribed is appropriate for a patient and document accordingly in the patient's medical record. Compounded items may require an attestation of clinical difference from the prescriber, practitioner administering the preparation, or practitioner's representative prior to the order being filled.

Disclaimer: The headings and descriptions contained within this document are general headings describing formulas, products and services offered by AnazaoHealth Corporation. These general headings are not intended and should not be interpreted to make recommendations or claims regarding the use, efficacy or safety of products, formulas and/or services listed herein. Only a doctor or other appropriately licensed health care professional, as a learned intermediary, can determine if a formula, product or service described herein is appropriate for a patient.
