

HORMONE PELLETS

HRT Pellets are dispensed and packaged from our FDA-Registered 503B Outsourcing Facility that adheres to cGMP guidelines to offer unsurpassed quality.

(Licensed in all 50 states. Patient specific in Alabama and North Dakota)

ANAZAHEALTH'S INDUSTRY LEADING:

Pellet Consistency

Special machined compression techniques eliminate pellet to pellet variability, every pellet is independently weighed and visually inspected to meet defined acceptance and release criteria.

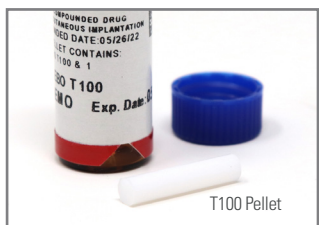

Pellet Dating

Most pellets typically have a 1-year expiration date **from the date they are compounded** allowing peace of mind, when ordering for office use, to stock inventory for your practice. Most Testosterone Cholesterol Pellets have 180-day dating **from the date they are compounded**.

Pellet Safety

Terminally sterilized with fully cGMP validated electron beam sterilization processes, all pellets are third party tested confirmed to meet potency and endotoxin before released.

Service & Fulfillment

Since 1997, years of investment and workflow refinement ensure the certainty of our pellet supply. State-of-the-art custom software ensures accurate and fast order turnaround. Guaranteed customer service and processing begins the moment your order is received, through the time it is shipped. We take great pride in the quality of all of our preparations.

FOR HORMONE REPLACEMENT THERAPY

Available in multiple strengths for office use:

Testosterone

Estradiol

Testosterone/Anastrozole

Testosterone (Cholesterol)

(87.5 mg, 100 mg, 200 mg)

Pellet Packaging

Custom designed vial inserts ensure our pellets arrive to you intact. Each pellet vial has a visual indicator showing successful e-beam sterilization.

*Pellet vials now ship with new cap colors.
Vial cap colors help distinguish product families.
All strengths within the family will have the same cap color.*

Patient-specific prescriptions required in order to dispense. A physician must determine a compounded preparation prescribed is appropriate for a patient and document accordingly in the patient's medical record. Compounded items may require an attestation of clinical difference from the prescriber, practitioner administering the preparation, or practitioner's representative prior to the order being filled.
